Block and Blockstream are partnering with Tesla on an off-grid, solar-powered Bitcoin mine in Texas

The Verge 08.04.2022

Block and Blockstream are partnering with Tesla on an open-source, solar-powered Bitcoin mine, the companies announced Friday. Tesla's 3.8-megawatt Solar PV array and its 12 megawatt-hour Megapack will power the facility, and construction has started on the p...

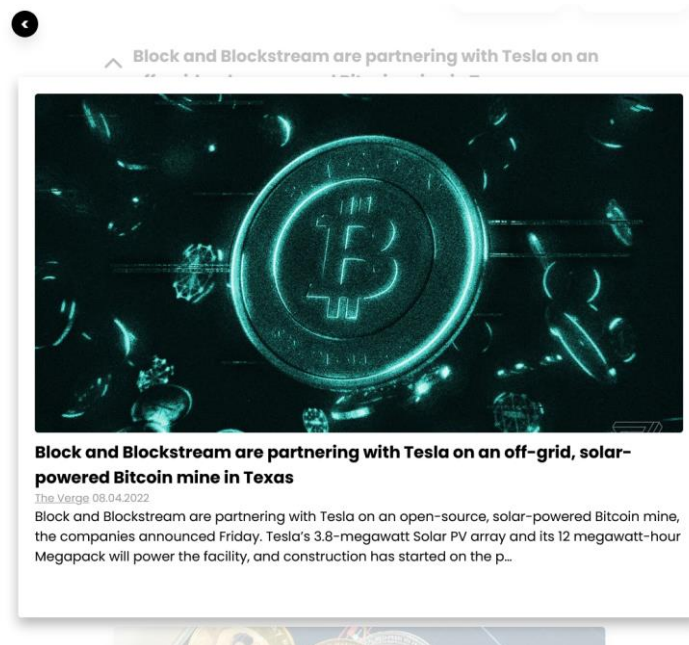

Wikipedia editors vote to block cryptocurrency donations

Engadget 14.04.2022

Wikipedia editors have voted in favor of dropping cryptocurrency from the Wikimedia Foundation's donation options. As Ars Technica reports, an editor for the online encyclopedia called GorillaWarfare wrote a proposal
